ABSTRACT

This document contains statistics and input-output measures for all Colorado public libraries. Tables of the following 1997 survey data are provided: state totals and averages; public library addresses; telephone, fax, and URL for public libraries; public library directors; borrowers, outlets and bookmobiles; ALA-MLS librarians, other staff and total staff in FTE (full-time equivalency); computers and networking; local, state, federal, other, and total library income; staff expenditures, including salaries, benefits and totals; materials expenditures, including bound volumes, video, audio, subscriptions, and electronic materials and access; miscellaneous materials and operating expenditures and totals, including capital outlay; selected library materials, including books, audio/video materials, software, and paper and electronic periodicals; circulation figures; public service and evening and weekend hours; annual visits, reference transactions, and interlibrary loan; children, young adult, and adult programs and attendance; input measures--FTE ratios and items per 1,000 ratios; funding measures--per capita funding ratios, staff and materials as percent of operating expenditures; output measures--registration as a percent of population, services per capita, services per hour, evening and weekend hours percentages, turnover rate, interlibrary lending, program, attendance per 1,000 served, and services to children; and Colorado Public Library salaries and wages. Charts of local funding sources (1997) and selected statistics (1996-1997) are also included. An appendix provides the 1997 Annual Report Form. (AEF)

FOREWORD

Statistics and Input-Output Measures for Colorado Public Libraries, 1997 is made possible by the teamwork between the public libraries of Colorado and the Colorado State Library. It is the compilation of data collected from the Colorado Public Library Annual Report sent to each public library jurisdiction in February of 1998 and returned in March.

Web Page Publication Site: This publication is available in both Adobe portable document file format (.pdf) as well as Excel (.xls) at the LRS web site, http://www.lrs.org/html/public_libraries.html. Beginning next year, the Library Research Service will make this publication available via the World Wide Web and will mail paper editions upon request to the LRS office.

Response Rate: The 1997 response rate for libraries as well as for individual items on the Annual Report was excellent: 100% of Colorado public libraries returned the Annual Report and there was a substantial reduction in the number of individual items left blank.

Requests for Paper Editions: Requests for this or any LRS printed publication may be made at any time to Administrative Assistant Louise Conner by phone at (303) 866-6906 or by e-mail at Conner_L@cde.state.co.us.

Federal Submission: The Colorado State Library submits an annual report to the National Center for Education Statistics (NCES) for the Federal State Cooperative System (FSCS) for Public Library Data. A report from NCES, ranking all the states, is published each year in paper and electronic formats. Many of the items requested in the Annual Report are required for this submission.

Profiles Report: The 1997 COLORADO PUBLIC LIBRARY PROFILES can provide further analysis of public library statistics in conjunction with this document. They can be viewed at http://www.lrs.org/ html/public_libraries.html.

Definition and Uses of LRS Ratios and Measures

ATTENDANCE AT CHILDREN'S PROGRAMS AS PERCENT OF TOTAL ATTENDANCE

Libraries provide programs to inform, educate, and entertain their clients, and to promote further library use. This measure relates the number of persons of all ages attending library-sponsored programs directed at children to all persons attending programs of all kinds. It is one indicator of how successful a library has been in planning children's programs.

CIRCULATION OF CHILDREN'S MATERIALS AS PERCENT OF TOTAL CIRCULATION

This statistic compares the circulation of children's materials to the library's total circulation. Note that it is a measure of children's *materials* circulated, regardless of the age of the borrower. It is helpful to examine this statistic when considering library service to children.

CIRCULATION PER CAPITA

Circulation per Capita relates the number of library materials lent to the number of persons the library serves. It is annual circulation divided by the library's legal service area population, and indicates the average number of loans made to each resident annually. Lower Circulation per Capita can be a result of lower Materials Expenditures and Volumes Held per Capita. It is also likely to lead to more ILLs per 1,000 Circulation. [Note: A related statistic is "Circulation per Visit" is provided for libraries serving resort communities.]

COMPUTER FILES PER 1,000 SERVED

Computer Files per 1,000 Served relates the number of computer files in the library's collection to the size of the population it serves. It includes units such as CD-ROMs and computer software packages divided by the population served in thousands. This statistic is a measure of the size of the library's computer files collection relative to the population it serves

EVENING & WEEKEND HOURS AS PERCENT OF HOURS OPEN

This figure shows the percent of hours the library is open after 5 o'clock p.m. and on the weekends, compared to all hours the library is open to the public.

ILL NET LOAN RATE

ILL Net Loan Rate relates the number of materials lent to other libraries to the number of materials borrowed from other libraries through interlibrary lending. It is calculated by dividing the number of items lent by the number of items borrowed. This output measure is relevant whenever the library's participation in interlibrary loan activities is an issue. It indicates whether the library does more lending (scoring over 1.0) or more borrowing (scoring 0.90 or less). "Net borrowers" may use this figure as evidence of what they gain from participating, while "net lenders" may use it to argue for the maintenance of strong collections.

ILL'S PER 1,000 CIRCULATION

ILLs per 1,000 Circulation relates the number of materials borrowed from other libraries to the number of materials in the local collection available to borrowers. It is the number of ILL borrows divided by total circulation and then divided by 1,000. This measure indicates the number of interlibrary borrowing per 1,000 items circulated from the collection. A higher figure of ILLs per 1,000 Circulation might indicate better performance by the library as a point of access for information not in the local collection. A lower figure might indicate that the local collection was meeting user needs. The interpretation of this statistic depends on which issue is at hand as well as the actual amount of ILL and circulation activity per capita. Higher levels of ILL and circulation activity favors the former interpretation, while lower levels of such activity favors the latter interpretation.

LEGAL SERVICE AREA POPULATION (LSA)

This is the number of people in the geographic area for which a public library has been established to offer services and from which (or on behalf of which) the library derives incomes, plus any areas served under contract for which the library is the primary service provider.

LIBRARY VISITS PER CAPITA

Library Visits per Capita relates the number of annual library visits to the number of persons the library is established to serve. It is attendance at the library during a typical week multiplied by 52 (weeks per year) divided by the library's legal service area population. This measure may be estimated by counting the number of persons (excluding library staff, of course) who enter -- or, if preferred, leave -- the library during a typical week. A typical week is one during which the library is open its regular hours (no holidays) and which is neither extraordinarily busy nor slow. Because Library Visits per Capita indicates the average number of library visits per person served, it is a better measure of public awareness and use of the library than Registration per Capita. Because registration statistics may be out-of-date and, therefore, questionably valid, attendance statistics reflect actual visits to the library. Taken with Reference, Circulation per Capita, and Program Attendance per 1,000 Served, Library Visits per Capita can be used to develop an annual profile of library use. [Note: This ratio does not apply to libraries serving resort communities.]

LOCAL INCOME PER CAPITA

Local Income per Capita is perhaps the best single measure of the library's financial support, as the vast majority of operating income comes from local sources. This is the total local income amount (from city, county, district, or other sources) divided by the number of persons which the library was established to serve. Knowing the extent to which libraries are supported by their local funding base is valuable information for public librarians and their governing boards when submitting and defending budgets.

MATERIALS EXPENDITURES PER CAPITA

Materials Expenditures per Capita relates library funds spent on materials for the collection (e.g., books, periodicals, and non-print items such as audio and video cassettes) to the number of persons the library was established to serve. It is the dollar amount spent on materials divided by the library's legal service area population, and indicates the average cost per person of purchasing newly acquired materials. This figure does not take into account the cost of processing library materials. Materials Expenditures per Capita is relevant whenever the size or usefulness of the collection is an issue. When addressing this issue, relate other input measures indicating the quantity of materials available, such as Volumes Held per Capita; also relate output measures that indicate the usefulness of materials, such as Circulation per Capita, Turnover Rate, ILL Net Lending Rate, and ILLs per 1,000 Circulation. It is also important to review Materials Expenditures per Capita whenever the population of the library's legal service area changes quickly. [Note: A related statistic, "Materials Expenditures per Visit," is provided for libraries serving resort communities.]

MATERIALS EXPENDITURES AS A PERCENT OF OPERATING EXPENDITURES

Materials Expenditures as a Percent of Operating Expenditures relates the amount spent on the library's collection to what is spent for overall operations. It is the cost of library materials divided by the amount spent for all operating expenses including materials costs. This measure indicates the proportion of the library's operating expenditures which is set aside for materials. This may indicate a library's commitment to its collection. However, an extremely high figure on this measure can also indicate a library's lack of commitment to paying staff which is usually a major cost. To interpret this measure, take into account "other operating expenditures." A library may pay large bills for online utilities and telecommunications services for database searching. For comparisons, use libraries which have similar "other" expenses.

OTHER EXPENDITURES PER CAPITA

Other Expenditures per Capita relates the amount of library funds spent for purposes other than staff and materials costs to the number of persons the library is established to serve. It may include the dollar amount spent on miscellaneous operating expenses including rent, utilities, telephone and telecommunications, computer services, office supplies, and postage divided by the library's legal service area population. This figure approximates the average cost per person of running library facilities. This input measure may be relevant whenever the economy or efficiency of the library's day-to-day operations is an issue. The cost-effectiveness of library operations may be demonstrated by relating Other Expenditures per Capita to those output measures which best reflect the range of most frequently used services and programs the library provides to its users.

PROGRAM ATTENDANCE PER 1,000 SERVED

Program Attendance per 1,000 Served relates attendance of scheduled presentations which are sponsored by the library (on or off library premises) to the population the library is established to serve. It is program attendance divided by the library's legal service area population in thousands. It indicates the number of residents per 1,000 in the library's legal service area who attended a library program during the year. This output measure may be relevant whenever the library needs to demonstrate its services to groups.

REFERENCE QUESTIONS PER CAPITA

Reference per Capita relates the annual number of information contacts with a staff member using information sources to the number of persons the library is established to serve. It is the number of reference transactions per typical week multiplied by 52 , then divided by the library's legal service area population. This measure indicates the average number of times a resident of the library's legal service area received staff assistance in using information sources available at or accessible through the library. Reference per Capita may be relevant whenever the impact of reference service is an issue. Comparing this figure to Circulation per Capita may be useful in evaluating the reference desk as an access point for information available in the local collection. Comparing it to ILLs per 1,000 Circulation and ILL Net Lending Rate may be useful in evaluating access via the reference desk to information that may not be available locally. [Note: A related statistic, "Reference Questions per Visit, " is provided for libraries serving resort communities.]

REGISTRATION AS A PERCENT OF POPULATION

Registration as a Percent of Population relates the number of persons registered as borrowers to the number of persons the library is established to serve. It is the number of individual registrations divided by the library's legal service area population. This measure indicates the percentage of the library's potential users who have demonstrated an intent to borrow materials from the collection. This output measure may be relevant whenever public awareness of the library is called into question. Assuming a library's registration file is up-to-date, this figure indicates the percentage of potential users who know the library exists and have implied an intent to use it. High Registration per Capita may also be useful in justifying increases in input measures (such as Staff, Materials, and/or Miscellaneous Expenditures per Capita). NOTE: All registration figures reported by Colorado public libraries are included here. Registration figures which have not been updated in the past three years should be regarded as questionable. [Note: This ratio does not apply to Libraries Serving Resort Communities.]

STAFF PER 100 REFERENCE

Staff per 100 Reference relates the size of the library's staff to the number of reference questions the staff handles. It is the number of staff in FTEs (see Staff per 1,000 Served) divided by total annual reference questions (or reference questions per typical week multiplied by 52) in hundreds. This statistic measures staff work load relative to reference services provided.

STAFF PER 1,000 SERVED

The definition of public library as set forth in Public Library Standards for Colorado 1997 includes the following stipulation: "[A public library must] have paid staff person(s) present during all hours of service." (p. 2) Staff per 1,000 Served measures the level of staffing relative to the legal service area population. It is the number of library staff in Full-Time Equivalents divided by the number of persons in that area. Full-time equivalent (FTE) staff is calculated by adding the total number of hours per week worked by all staff and dividing by 40. In this context, full-time means 40 hours per week, regardless of how many hours per week the library is open. This input measure may be relevant whenever the adequacy of library staffing and staff funding are issues. It is particularly useful when the population or geographical area which the library serves increases dramatically. When that happens, there should be a corresponding increase in staff to offset the population increase.

STAFF PER 10,000 CIRCULATION

Staff per 10,000 Circulation relates the size of the library's staff to the number of items circulated. It is the number of staff in FTEs (see Staff per 1,000 Served) divided by total annual circulation in tens of thousands. This statistic measures staff work-load relative to circulation.

STAFF EXPENDITURES AS A PERCENT OF OPERATING EXPENDITURES

Staff Expenditures as a Percent of Operating Expenditures is the sum of all staff expenditures for salaries, wages, and benefits divided by the sum of all operating expenditures for staff, materials, and other purposes. This measure indicates the proportion of the library's annual operating expenditures that is spent to compensate staff. Generally, this figure comprises the single largest proportion of operating expenditures. If this figure is extremely high, however, it may indicate a lack of adequate funding for other aspects of library operations; and, if extremely low, it may indicate a lack of commitment to having professionally trained library staff.

STAFF EXPENDITURES PER CAPITA

Staff Expenditures per Capita relates the amount of library funds spent on staff to the number of persons the library was established to serve. It is the dollar amount paid in salaries, wages, and benefits divided by the library's legal service area population. This figure indicates the average cost per person of staffing the library.

This input measure may be relevant whenever the adequacy of library staffing or staff performance are issues. The cost-effectiveness of library services may be demonstrated by relating Staff Expenditures per Capita to output measures which indicate the amount of service received such as Circulation and Reference Transactions per Capita, and Program Attendance per 1,000 Served.

It is also important to review this measure whenever the population of the library's legal service area grows quickly. For example, if population increases dramatically, there should be a corresponding increase in Staff Expenditures per Capita just to maintain the existing level of support.

SUBSCRIPTIONS PER 1,000 SERVED

Subscriptions per 1,000 Served relates the number of current serial subscriptions carried by the library to the size of the population it serves. It is the number of current serial subscriptions divided by the population served divided by one thousand. This statistic is a measure of the size of the library's current periodicals collection relative to the population it serves. [Note: A related statistic, "Subscriptions per 1,000 Visits," is provided for libraries serving resort communities.]

TOTAL EXPENDITURES PER CAPITA

Operating Expenditures per Capita relates total library funds spent for all purposes to the number of persons the library serves. It includes the dollar amount spent on staff, materials, and miscellaneous expenses divided by the library's legal service area population. This figure approximates the average cost per person of running the library. Operating Expenditures per Capita may be relevant whenever the efficiency of the library's overall operation is an issue. The cost-effectiveness of operations may be demonstrated by relating Operating Expenditures per Capita to those output measures which best reflect the range of most frequently used services and programs the library provides to its users. It is also important to review this measure if the library's legal service area changes dramatically. For example, if the population increases substantially, there should be a corresponding increase in Operating Expenditures per Capita just to maintain the existing level of support.

TURNOVER RATE

Turnover Rate relates the number of materials checked out to the size of the collection. It is the number of materials circulated divided by the number of volumes held. Turnover rate indicates how often each item in the collection was lent, thus this measure is relevant to use of the collection. It may be useful to compare this figure to selected inputs such as volumes held per capita, and outputs such as circulation per capita and ILLs per 1,000 circulation.

VIDEOS PER 1,000 SERVED

Videos per 1,000 Served relates the number of video materials in the library's collection to the size of the population it serves. It is the number of video cassettes (or disks) divided by the population served in thousands. This statistic is a measure of the size of the library's video collection relative to the population it serves.

VISITS PER CAPITA

See *Library Visits Per Capita*

VOLUMES PER CAPITA

Volumes per Capita relates the number of volumes or units in the library's collection to the number of persons it was established to serve. It is the number of print volumes held by the library divided by its legal service area population. This figure indicates the average number of volumes held for each person in the library's legal service area population. This input measure may be relevant whenever the size of the library's collection is an issue. It is particularly useful when the population or geographical area which the library is established to serve changes dramatically. For example, in the latter case, there should be corresponding increases in Materials Expenditures as well as Volumes Held just to maintain the existing ratio of holdings to persons served.

Colorado Public Library Annual Report 1997

Please return by March 27, 1998 to:
Louise Conner
State Library and Adult Education Office
201 E. Colfax Avenue, Suite 309
Denver, Colorado 80203-1799
A return envelope and fax cover sheet are enclosed for your convenience. You may also use the courier system to return it. Courier code: CC-CSL, Denver

Dear Director's Name:

Thank you in advance for your participation in this annual survey. This report covers the fiscal year ending in 1997, and incorporates items reported to the national level through the Federal/State Cooperative System (FSCS) for Public Library Data. If you have any questions as you fill out this survey, please don't hesitate to contact me at the State Library at (303) 866-6927, or by e-mail at Seidl_A@cde.state.co.us.

The 1997 Report is different from those we sent you in the past. This form has been specifically prepared for your library, including several fields which are already filled out and many of your responses from last year. This is intended to save you time and provide you with comparison data.

The data you supply is very valuable for the decision-making process in Colorado, as well as nationally. Each field must contain an answer for your survey to be complete. If you don't know the actual number requested, you must give an estimate. Please be advised that if an item is left blank, I will contact you for the answer, so if you need advice on how to estimate a particular item, please contact me.

Please enclose a copy of your Establishment Document and Trustees list together with this completed Report (see pages 12 and 13).

It is our hope that this survey and its resulting data will assist you in your planning and decision-making process.

Very truly yours,

Ann M. Seidl

2. Legal Service Area (LSA) Boundaries

The area that is served by a library and supports it through taxes is called the Legal Service Area. LSA boundaries are defined by a town, city, county, library district, school district, a combination of two or more of these, or some other geographic designation.

Your library is currently listed with a service area type of **County**

If this has changed or is incorrect, please make changes here:

☐ Municipal (Town or City) ☐ County ☐ Multi-county ☐ Library District ☐ School District

☐ Other (please be specific) ____________________

3. Registered Borrowers

	This year:	Last year:
How many local borrowers are registered with your library?		9,999

4. Service Outlets

Please review this information for your library's service outlets and make corrections where necessary.

Number of Main Libraries:	1	☐ Correct.	☐ Incorrect. Should be ____________
Number of Branch Libraries:	0	☐ Correct.	☐ Incorrect. Should be ____________
Number of Bookmobiles:	0	☐ Correct.	☐ Incorrect. Should be ____________

5. Staff in Full Time Equivalent

Using the grid below, please calculate your staff figures as of the last day of your fiscal year 1997. Include al positions funded in your library's budget whether or not they were filled. Please report these figures in terms of Full Time Equivalent (FTE). Here is an example:

If a library staff looks like this...

Names of library staff:	Position:	MLS?	Hours per week each works:	FTE conversion
Angela Martinez	Director	Yes	40	40/40=1 FTE
Bill Campbell	Librarian	No	35	35/40=.875 FTE
Carolee Bunn	Librarian	Yes	35	35/40=.875 FTE
Lucy Schmidt	Network Spec.	Yes	36	30/40=.75 FTE
Marie D'Agostino	Lib Asst.	No	20	20/40=.50 FTE
Unfilled	Maintenance	No	40	40/40=1 FTE

...then the staff grid will be filled in like this:

POSITION	With ALA/MLS	Without ALA/MLS	TOTAL
Director	1.00		1.00
Librarians	.875	.875	1.75
Other Professionals	.75	.5	1.25
All Other Paid Staff		1.00	1.00
TOTAL	2.625	3.275	5.00

Note that the outlined box will total both across and down.

Placeholder Library

POSITION	With ALA/MLS	Without ALA/MLS	TOTAL
Director			
Librarians			
Other Professionals			
All Other Paid Staff			
TOTAL			

For purposes of comparison, your library reported the following FTE staff last year:

ALA/MLS:	0.5	**Other Staff:**	0.5	**Total Staff:**	1

Definitions (modified from the Federal State Coorperative System for Public Library Data):

Director: The chief administrator of the library.

Librarians: Persons with the title of librarian who do paid work that usually requires professional training and skill in the theoretical or scientific aspects of library work.

Other Professionals: Persons whose regular assignment requires either a college degree or equivalent experience, e.g. accountants, systems analysts, computer programmers.

All Other Paid Staff: This includes all other employees, e.g. plant operations, security, and maintenance staff.

With ALA/MLS: Include all persons with a master's degree from programs of library and information studies accredited by the American Library Association.

6. Computers and Networking

How many computers, in total, do you have available to the public in your library?	☐
How many of these computers have an Internet connection?	☐
How many of these computers are on a local network?	☐
How many of these computers provide access to the library catalog?	☐
How many of these computers are connected to CD-ROM resources?	☐

Income

Please report your library's income in the boxes on the left. Use whole dollars only, no cents. At the right are your responses from last year. (If your library did not receive income in a category last year, that field will be blank.)

7. Local Income

22. Annual Public Service Hours

This section asks for the annual number of hours your library is open to the public. This number can be calculated by counting the number of hours open during a typical week or 7 typical days, and multiplying that number by 52. Below is an example of a library's worksheet.

Day	Typical Hours of Service Open			Public Service Hours	Eve/Weekend Hours
	Main Building	Branch	Branch		
Sunday Schedule: Hours: Eve/wkend:	 1 pm - 4 pm 3 hours 3 hrs	 1 pm - 4 pm 3 hrs 3 hrs	 1 pm - 4 pm 3 hrs 3 hrs	3 + 3 + 3 = 9	3 + 3 + 3 = 9
Monday Schedule: Hours: Eve/wkend:	 9 am - 9 pm 12 hrs 4 hrs	 9 am - 5 pm 8 hrs 0 hrs	 9 am - 5 pm 8 hrs 0 hrs	12 + 8 + 8 = 28	4 + 0 + 0 = 4
Tuesday Schedule: Hours: Eve/wkend:	 9 am - 9 pm 12 hrs 4 hrs	 9 am - 9 pm 12 hrs 4 hrs	 Closed	12 + 12 = 24	4 + 4 = 8
Wednesday Schedule: Hours: Eve/wkend:	 9 am - 9 pm 12 hrs 4 hrs	 9 am - 9 pm 12 hrs 4 hrs	 9 am - 5 pm 8 hrs 0 hrs	12 + 12 + 8 = 32	4+ 4 = 8
Thursday Schedule: Hours: Eve/wkend:	 9 am - 9 pm 12 hrs 4 hrs	 9 am - 9 pm 12 hrs 4 hrs	 9 am - 9 pm 12 hrs 4 hrs	12 + 12 + 12 = 36	4 + 4 + 4 = 16
Friday Schedule: Hours: Eve/wkend:	 9 am - 5 pm 8 hrs 0 hrs	 9 am - 5 pm 8 hrs 0 hrs	 9 am - 5 pm 8 hrs 0 hrs	8 + 8 + 8 = 24	0
Saturday Schedule: Hours: Eve/wkend:	 10 am - 2 pm 4 hrs 4 hrs	 9 am - 12 pm 3 hrs 3 hrs	 10 am - 1 pm 3 hrs 3 hrs	4 + 3 + 3 = 10	4 + 3 + 3 = 10
TOTAL hours in a typical week				9 + 28 + 24 + 32 + 36 + 24 + 10 = **163**	9 + 4 + 8 + 8 + 16 + 0 + 10 = **55**
(multiply by 52)				x 52	x 52
TOTAL for the year				163 x 52 = **8476** annual public service hours	55 x 52 = **2860** annual evening & weekend hours

Using this worksheet and the example provided on Page 8, please enter your Annual Public Service Hours and Evening and Weekend Hours in boxes a. and b., below. Evening hours begin at 5 p.m. For libraries with more than three branches, please make as many copies of this worksheet as necessary and total all pages in boxes a. and b.

Day	Typical Week or 7 Typical Days				Public Service Hours	Eve/Weekend Hours
	Main Building	Branch	Branch	Branch		
Sunday Schedule: Hours: Eve/weekend:						
Monday Schedule: Hours: Eve/weekend:						
Tuesday Schedule: Hours: Eve/weekend:						
Wednesday Schedule: Hours: Eve/weekend:						
Thursday Schedule: Hours: Eve/weekend:						
Friday Schedule: Hours: Eve/weekend:						
Saturday Schedule: Hours: Eve/weekend:						
TOTAL hours in a typical week						
multiply by 52 for yearly total					x 52	x 52
TOTAL for the year					a.	b.

For comparison, here is what your library reported last year:

Annual Public Service Hours: **1,240** Annual Evening/Weekend Hours: **128**

23. Challenges Report

Please report any attempt by any individual or group to restrict access to any title, material, exhibit, presentation, event, or computer display during the last year. Please estimate if you don't know the exact number. Count the challenge if a public oral or written complaint is lodged to library staff, administration or governing board. 26. Establishment Document Submission

An establishment document defines which governmental unit established and is responsible for the library. It may also define responsibilities of the Board of Trustees in certain instances. Under CRS 24-90, public libraries in Colorado may be established as municipal libraries, county libraries, library districts, as joint libraries, or by a school district. Joint libraries are most often public/school combinations. If an establishment document is currently in your library files, city or county files, please send a copy to the State Library along with this report. If an establishment document for your library is not on file, your city or county government may pass an ordinance or resolution to legally establish the library under Colorado Library Law, Colorado Revised Statutes 24-90-103 (2), (6), (13), 106, 107, 108, 109. Sample ordinances and resolutions are available upon request. Once filed, establishment documents are updated only when there is a change in the library legal service area, governance structure, or funding structure. Examples of this would be when a city library first receives any funding from the county, when a library district is formed, when a joint school/public library is formed, etc. You may contact Katherine Brown at the State Library Development Office at (303) 866-6908 or at brown_k@cde.state.co.us with any questions or concerns about Establishment Documents.

The following define appropriate establishment documents for the different types of public libraries in Colorado.

Library District: If a local government established the district without going to the voters, please provide a copy of the ordinance establishing the library district. If the formation of the district was put before the voters, please provide a copy of the ballot question which established the library district and a copy of the certified election results.

Home Rule City/Municipal Library: A copy of the motion or resolution made at the time the city took responsibility for funding the library and copy of the city ordinance(s) governing the library are the most official and the preferred documents. If your city has not yet officially adopted the appropriate ordinances, please send a copy of the motion or resolution made at the time the city took responsibility for funding the library and any motions or resolutions which address library governance/board authority issues.

Home Rule County Library: A copy of the motion or resolution made at the time the city took responsibility for funding the library and copy of the county ordinance(s) governing the library are the most official and the preferred documents. If your county has not yet officially adopted the appropriate ordinances, please send a copy of the motion or resolution made at the time the county took responsibility for funding the library and any motions or resolutions which address library governance/board authority issues.

Statutory City/Municipal Library: Please provide a copy of the ordinance, resolution or motion made at the time the city took responsibility for funding the library, including any ordinance, resolution or motion granting specific responsibilities to the library board. Also include any ordinance, resolution or motion which affects the library's legal service area, establishment, governance or funding.

Statutory County Library: Please provide a copy of the ordinance, resolution or motion made at the time the county took responsibility for funding the library, including any ordinance, resolution or motion granting specific responsibilities to the library board. Also include any ordinance, resolution or motion which affects the library's legal service area, establishment, governance or funding.

School District Governed Library: Please provide a copy of the motion made at the time the school board took responsibility for the library, including any ordinance, resolution or motion granting specific responsibilities to the library board. Also include any ordinance, resolution or motion which affects the library's legal service area, establishment, governance or funding.

School/Public and other joint libraries: Please provide a copy of the appropriate establishment document for the public library plus a copy of the inter-local agreement between the public library governing entity and the school district or other governing entity. This ordinance should outline the financial and governance responsibilities of each of the governing entities whether city, county, library district, school district, community college, etc.

Feedback

I would appreciate your comments on the Public Library Annual Report 1997. Please give me any feedback you like, including which items were difficult, which items took a long time to fill in, what was helpful, the overall look of the Report, and so forth. Suggestions for new ways to do things next year are particularly welcome. You may make your comments anonymous. This form can be faxed to the Library Research Service, included with your Report, or mailed under separate cover. Thank you.
